EDUCATION

Corvinus University of Budapest
PhD Studies in Economics
Natural Language Processing and AI applied to Knowledge Management
2008 - 2011

Corvinus University of Budapest
Master degree Computer Science
2003 - 2008

SKILLS

ARTIFICIAL INTELLIGENCE

- Prompt engineering (Gemini, Gemma, OpenAI models, and Llama LLMs)
- Retrieval-Augmented Generation (RAG) LlamaIndex
- Agentic AI (Dify, Make, CrewAI)
- Image Captioning models
- Image Generation (Stable Diffusion)
- Multimodal LLMs
- Ollama, vLLM, Friendli AI

TOOLS AND PLATFORMS

- JIRA, Confluence
- Postman
- Windsurf, Cursor
- Stash (Bitbucket)
- Photoshop

PROGRAMMING

- Python (working knowledge, applied in scripting and AI prototyping)
- JavaScript (advanced, including Chrome extension development)
- SQL (MySQL)

LANGUAGES

- English (C1)
- German (B1)
- Hungarian (C2)

Zoltan Andrejkovics

AI MANAGER

WORK EXPERIENCE

AI Project Manager

Byborg Enterprises (2024-2025)

- Worked with AI/ML engineers and AI-DevOps to deliver AI solutions across the group companies
- Led a portfolio of 10+ AI projects with the AI core team delivering Python/FastAPI endpoints with Swagger UI, owned the AI roadmap, sprint planning, unit cost control, and set PoC and project deadlines
  Projects: LLM services with RAG, Synthetic data generation using Agentic AI workflow on Dify, Image/video generation, testing open source and 3rd party TTS models (Elevenlabs), and image captioning solutions
- LLM Prompt Engineering for business users (Creation of system prompt templates)
- Worked with cross-functional teams to apply AI APIs to their individual use cases, providing documentation, sample calls, and walkthroughs
- Estimated API costs and defined intragroup transfer pricing, built post-implementation cost estimates and scenario models for real use cases
- Researched and evaluated open-source AI models (e.g., Llama, Gemma, Qwen) for integration into business use cases
- Translated business demand into technical requirements and high-level impact assessments, aligning scope, budget, risks, and timelines across squads
- Ensured EU AI Act compliance for LLMs with ethical AI practices, including risk classing, data governance and DPIA

Managing Director & Operation Manager

Webmindlicenses Ltd. (2013-2024)

- Managed the company's IP portfolio (trademarks, domains, know-how) and led knowledge management for audit-ready know-how on live-streaming technology including site build, backend, data flows, support workflows, and payment processes
- Worked with top-tier advisors on finance and tax topics, including transfer pricing documentation and audit support (PwC, Deloitte, KPMG)
- Coordinated external law firms on contracts, disputes, and compliance, including tax authority challenges and court proceedings
- Managed the real estate portfolio of the company end-to-end (incl. Il Bacio di Stile)

Managing Director

Zinemath Ltd. (2017-2018)

- Leading a depth camera research (zLense) and medical ML research (zMed) projects with cross-disciplinary teams
- Managed end-to-end delivery of a GINOP-2.2.1 EU R&D grant (zMed mixed-reality medical visualization), coordinating a three-member consortium (Zinemath Zrt., Pécsi Tudományegyetem, and MTA SZTAKI)
- Led the sale of Zinemath Ltd. to OXO Holdings, overseeing deal structuring, due diligence, agreement negotiation, change management and closing coordination

Managing Director

Docler eSport Ltd. (2014-2017)

- Led a Dota 2 professional e-sports team
- Managed HR and cash flow aspects of the organization

BOOKS & PUBLICATIONS

TOGETHER: AI AND HUMAN. ON THE SAME SIDE. (2019)
Artificial Intelligence: A Business Introduction
(non-fiction, AI ethics)

A NEWBORN BUSINESS: ESPORTS (2018)
Economics behind esports and the gaming industry (non-fiction)

THE INVISIBLE GAME: MINDSET OF A WINNING TEAM (2016)
Teaching the winning mindset for professional e-sports players (non-fiction)

IT Project Manager and Operations Manager

Docler Services Ltd. (2014-2016)

- Product owner of Docler Music website, from concept to go live, scoped core features, coordinated cross-functional delivery, defined roadmap and backlog, set T&Cs and artist agreements, integrated PayPal, designed incentives and revenue streams
- Led a multi-title IP sale negotiation between Digital Reality and Nordic Games, from term sheet to SPA and closing (covering franchises such as Imperium Galactica and Sine Mora)

IT Project Manager and Operations Manager

Duodecad Ltd. (2009-2013)

- Managed software, web, mobile, and BI projects (up to 20+), including full website development from scratch (incl. LiveJasmin.com). Coordinated multiple development teams (10+) on website feature and app delivery including projects like smart pay, adding new payment methods to websites, churn prediction
- Led the 2012 Luxembourg transition. Opened the new office, migrated operations of flagship sites (incl. LiveJasmin, Oranum, 50+ brands), and executed workforce transfer for ~150 employees. Coordinating legal, banking, data protection, infrastructure, deployed secure payment stack/SSL and PCI processes, invoicing system, handled domain and BI/stat system updates
- In 2011, applied Scrum and Kanban methodologies within Docler group, including the creation of project management office (PMO), led a group of scrum masters and project managers

m-Learning Assistant and Developer

Corvinno Technology Transfer Center Ltd. (2008-2009)

- Knowledge management using ontologies
- Designed education-focused mobile apps, delivering prototypes within EU-funded higher-education and research projects
